

A Joint Powers Authority

Public Projects Joint Project Review Form

Date Submitted to RCA: _____

Permittee Contact Information

Project Manager Name: _____

Email: _____

Phone Number: _____

Project Information

Project Name: _____

Project APNs: _____

Project Acreage (**attach/send electronic shapefiles**): _____

Project Type: (check one)

_____ Flood Control

_____ Transportation

_____ Water/Wastewater

_____ Other: _____

Project Description: _____

Area Plan: _____

Reserve Assembly

Is the Project Located in the Criteria Area? _____

If yes, what are the affected Cell(s)? _____

Is the Project located either partially or wholly on Public/Quasi-Public (PQP) Lands? _____

A Joint Powers Authority

Public Projects Joint Project Review Form

If yes, Will project affect the biological conservation value of these PQP lands? _____
If yes, **attach PQP replacement analysis.** (See Section 3.2.1 of the MSHCP.)

Is the Project a Covered Activity, as described in Section 7 of MSHCP?

_____ Yes: List which Section of MSHCP describes the Project, along with justification of how project meets the definition of a Covered Activity:

_____ No. If the project is located in the Criteria Area, **attach description** of how project contributes to Reserve Assembly by assessing project’s location in relation to the Cell Criteria.

For Transportation Projects in Criteria Area or on Public/Quasi-Public Lands **attach documentation** addressing the project’s consistency with, and incorporation of, the following:

- _____ Section 7.5.1 – Siting and Design
- _____ Section 7.5.2 – Wildlife Crossings
- _____ Section 7.5.3 – Construction
- _____ MSHCP Appendix C/BMPs

Survey Requirements

If JPR includes a DBESP, do you want the submittal of the DBESP with the JPR to be the official submittal to the Wildlife Agencies?
(i.e. 60 day review will begin when Agencies receive the JPR) _____

Section 6.1.2: Riparian, Riverine, Fairy Shrimp and Vernal Pool Habitats

Attach biological report(s) addressing the presence/absence of the following:

- Does the project footprint impact riparian habitat? _____
- Does the project footprint impact riverine habitat? _____
- Does the project footprint impact vernal pools? _____
- Does the project footprint impact fairy shrimp? _____

A Joint Powers Authority

Public Projects Joint Project Review Form

If yes to any of the above, attach a DBESP.

Does the project footprint impact (directly or indirectly) suitable habitat for species listed in Section 6.1.2?

_____ Yes: Attach focused surveys.

_____ No: Attach documentation.

Section 6.1.3 – Narrow Endemic Plant Species Survey Area (NEPSSA)

Is the project subject to NEPSSA surveys? _____

If yes, **attach Habitat Assessment and any relevant Focused Surveys.**

Attach DBESP if 90% of the habitat with long term conservation value is NOT being avoided.

Section 6.3.2 – Additional Species Surveys

Is the project subject to surveys? _____

If yes, **attach Habitat Assessment and any relevant Focused Surveys.**

Attach DBESP if 90% of the habitat with long term conservation value is NOT being avoided.

Section 6.1.4 – Urban Wildlands Interface Guidelines

_____ **Attach documentation** how project is consistent with this Section of MSHCP.

A Joint Powers Authority

Public Projects Joint Project Review Form

Mitigation

(check one)	Project Type	Method of Mitigation
	Maintenance/Safety per Section 7.2.1, 7.3.4 of MSHCP	Exempt
	Transportation Infrastructure	Regional payments from Measure A/TUMF or Caltrans mitigation bank
	Public Infrastructure on PQP Lands	purchase and dedication of lands with equivalent or superior conservation value at no less than 1:1
	Public Facilities	payment of MSHCP Fee at commercial/industrial per acre rate
	Flood Control	3% of capital costs, may be offset by replacement or creation of habitat
	Parks	1:1 replacement habitat and/or payment of MSHCP Fees (commercial/industrial per acre rate)
	Waste	landfill tipping fees
