14. STATUS UPDATE AND POSSIBLE EXECUTIVE COMMITTEE ACTION CONCERN TOLLING AGREEMENTS

This item is for Legal Counsel to provide an update concerning Tolling Agreements.

Steven DeBaun, General Counsel, presented this item. He was given direction from RCA Board and Executive Committee to reach out to cities that had findings after July 1, 2013 to negotiate Tolling Agreements along the lines of what was attached to the policy even though it had not been adopted. He reported that the City of Perris has agreed and authorized the Tolling Agreement. The City of Temecula is resolving their issues outside the need for a Tolling Agreement. The City of San Jacinto has paid their delinquent fees. The City of Calimesa is not opposed to a Tolling Agreement which is being processed. The City of Lake Elsinore is still in negotiation they are disputing how far RCA can go back to collect fees of 2010-11. A response from the City Attorney is expected soon.

Board Member Johnson made comments of clarification on where the city is on the date of discovery and the legal clarification from RCA Attorney Steven DeBaun. (Rose – What does this mean? What did Natasha say?)

Board Member Edwards commented that City of Temecula is satisfied with what is being proposed.

Chairman Montanez asked if any delay from City of Temecula or City of Lake Elsinore will pose a problem in executing the Tolling Agreements.

With regard City of Temecula it will be up to the Board, because Temecula provided funds for the RCA to purchase two properties back in 2012. The question is whether those funds should be counted as a credit against the outstanding fees. It would up to the Board to decide if a credit is appropriate.

Board Member Benoit applauded the City of Temecula for the ability to do that. He said if the City of Wildomar had done that, he would also request that they be given credit.

Board Member Edwards said at the time of the purchase, the City of Temecula did not know to ask for credit.

15. EXECUTIVE DIRECTOR'S REPORT

Charles Landry reported on the following items:

15.1 New Digital Voting System – Charles Landry asked Rose Haro, Administrative Manager, to provide an update on the new E-Voting system installed at the Board Chambers. She gave a brief update and advised that the system will be operating on September 12, 2016 for the Board of Directors meeting. A 15-minute training video was shown to Executive Committee. Chairman Montanez suggested that the Board of Directors meeting on September 12 commence at 12:00 p.m. to allow time for Board Members to train on the new system.

Roy Henderson also updated Executive Committee on the technical aspect of the new digital system and how it works.

Chairman Montanez suggested starting the Special Meeting of the RCA Board of Directors at noon on September 12, and opted not to provide lunch. He requested that the training video be sent to all the Board Members prior to the meeting.

15.2 Support for Senate Bill 1386 – Charles Landry gave an update on this bill and indicated there was no need to move forward on the support. It has been approved by the Senate and is at the Assembly.

16. FUTURE AGENDA ITEMS: *(Committee members are invited to suggest additional items to be brought forward for future discussion.)*

Chairman Montanez invited committee members to suggest additional items to be brought forward for future discussion. He also asked how the Executive Committee would like to deal with Winchester Murrieta 700 trail closure. He asked legal counsel if it was permissible to get an update on what happened. Steve DeBaun said it was ok.

Laurie Correa, Director of Reserve Management and Monitoring, indicated that Reserve Manager Ranger McLain closed a number of trails at Winchester Murrieta 700 created in the last several years likely by hikers and mountain bikers due to the site's proximity to a housing development. Since 2012 multiple new trails have been created that are

degrading the habitat on site. If the trails are closed, and it rains some of the habitat may regenerate. There is no shortage of trails in the area.

Chairman Montanez asked how is a trail closed.

Laurie Correa answered to say that is always the issue. Some areas are fenced and signage is placed. Others have signage and brush is placed in with narrow areas. These are the main methods.

Chairman Montanez asked if there are people still out there even with the closures.

Laurie Correa responded in the affirmative stating that people are still on the property. The Reserve Manager was not attempting to close the entire property. The goal was to deter people from using some of the trails.

Charles Landry said that RCA has reached out to the City of Murrieta in regard to restoring trails, but the city said they did not have the funds.

Chairman Montanez suggested contacting the County Trails Committee.

Charlie Landry said the RCA is very supportive of trails.

Chairman Montanez requested an update at the October 19, 2016 Executive Committee.

Background:

Pursuant to Section 17 of the JPA, the RCA has the power to adopt such rules and regulations as the RCA's Board of Directors may deem necessary for the conduct of the RCA's affairs. Pursuant to Article XIII of the RCA Bylaws, the RCA may amend its bylaws from time to time.

At the December 7, 2015 RCA Board of Directors' meeting, staff was directed to place an item on the agenda to allow the RCA Board of Directors to consider amending the RCA Bylaws with regard to election of officers and appointment of the RCA Executive Committee.

The Executive Committee authorized staff to place this matter on the Board of Directors' agenda for September 12, 2016 to introduce the resolution amending the bylaws. Legal Counsel presented the item, along with a chart depicting the manner in which RCA, RCTC and WRCOG's officers are elected and executive committee or equivalent is appointed.

At its September 12, 2016 meeting, the RCA Board of Directors supported the recommendation of the Executive Committee and staff which amended Article VI, Section A of the RCA Bylaws. This amendment to the Bylaws modified the annual alternation of Chairperson and Vice Chairperson to require that at least once every three years, the Chairperson or Vice Chairperson shall be a regular member of the Board who is a member of the Board of Supervisors.

The Board of Directors also supported a modification of Article IX, Section A.3 to allow two members of the Executive Committee to be selected by the Board at its meeting every December, or as soon as thereafter as practical. The remaining members shall be appointed by the Chairperson and ratified by the Board. The Board also directed staff to add language to this section which states that in the event of a vacancy in the Committee, the Chairperson shall appoint a replacement and said appointment shall be ratified by the Board.

Dudek assists the RCA in providing training and support to Permittees on MSHCP implementation. These training sessions are provided once or year or upon request and include an overview of the MSHCP, RCA responsibilities, Permittee Responsibilities, rough step, JPR process, required surveys and mitigation, CEQA documents, changes to the MSHCP, reserve lands, and the Wildlife Agencies' role. Discussion of unique circumstances for each Permittee is also provided in the training. Separate trainings sessions were held for the City of Murrieta and all Permittees, both during the third quarter of 2016. A separate training session was held for consultants on April 18, 2016.

Dudek staff continued to provide ongoing support and attended meetings with Permittees on MSHCP implementation and compliance questions. Dudek fields questions on an ongoing basis related to either new projects or ongoing projects.

Monthly meetings with the County Environmental Planning Department (EPD) have resumed as of January 2016. These meetings are a forum to discuss upcoming or ongoing County HANS/JPRs, conservation criteria, and other Permittee requirements to facilitate MSHCP consistency. Meetings with EPD this quarter were held on July 6 and August 3, 2016. The September 7, 2016 meeting was cancelled.

Wildlife Agency Coordination and Meetings

Dudek attended three monthly meetings with U.S. Fish and Wildlife Service (USFWS) and California Department of Fish and Wildlife (CDFW) staff hosted by the RCA. Duties included coordinating with attendees and review of materials ahead of the meeting. Meetings with the Wildlife Agencies this quarter were held on July 21, August 18, and September 15, 2016. Miscellaneous discussions included possible MOU to bring land into the Reserve at Linkage 8, and potential Santa Ana sucker habitat restoration at Hidden Valley and/or Hole Lake.

Dudek also participated in three Pre-Application Meetings with the U.S. Army Corps of Engineers, Regional Water Quality Control Board, CDFW, and FWS staff. Projects represented by Permittees and/or the project representatives are presented for consideration. The various regulatory agencies and RCA discuss, review, and seek solutions to issues related to permitting and MSHCP compliance. The review and analysis presented in these meetings is often subject to MSHCP Consistency review which is part of Dudek's role with the RCA. Meetings with the regulated waters Permitting Agencies this quarter were held on July 13, August 10, and September 14, 2016. At the pre-application meetings, Dudek also participated in discussions lead by Peggy Bartels (USACE) regarding linear waivers and the development of a USACE In-Lieu Program.

Also in this reporting period, Dudek provided documentation and support to CDFW and USFWS related to ongoing projects and questions on MSHCP implementation.

RCA Support

Dudek staff provided various forms of analysis and provided staff support by attending meetings, conference calls and conducting research via email related to ongoing and past projects. During this reporting period, Dudek was involved in discussions regarding the following projects, including but not limited to: Cajalco Road Widening, Mexico Café (Temecula) JPR, Tract 30322 on Salt Creek, Rancho San Gorgonio, Corona 720 Criteria Refinement, Hospitality Commons (Murrieta), Riverpark Mitigation Bank, San Jacinto River Stage III, Proposed Constrained Linkage 17, Mid-County Parkway, Moon Nursery, and the San Jacinto Wildlife Area. Dudek staff also attended the Altair Specific Plan (City of Temecula) Workshop on July 28, 2016 to take notes on RCA's behalf.

The last year of monitoring for the Munz's Onion relocation effort has been completed. The results of the monitoring effort are being incorporated into the final report which will be issued before the end of the year.

Participating Special Entities

Dudek staff provided support and coordination related to pending and existing Participating Special Entities (PSE). Issues related to several ongoing Southern California Edison (SCE) projects and the MSHCP are ongoing and require support related to MSHCP implementation. SCE submitted an informal PSE application for the Valley South System Project to RCA on January 4, 2016. The comments were sent to SCE via email on March 20, 2016 (BUOW DBESP) and May 23, 2016 (BTR). No further coordination has occurred with SCE; therefore as of this reporting period, this PSE process is still on hold.

A formal PSE application was submitted for the SCE Valley-Ivyglen Subtransmission Line Phase 2 (VIG2) on March 29, 2016 although GIS files were not provided until April 6. Revised reports (Riparian/Riverine Determination of Biologically Equivalent or Superior Preservation, and Additional Reserve Lands and Public/Quasi-Public Equivalency Analysis) were submitted June 6, 2016. RCA sent comments to SCE re: two (2) outstanding concerns and one (1) report correction on August 26, 2016. RCA is waiting for SCE to resolve the remaining issues before proceeding with PSE Findings.

The West of Devers Upgrade Project PSE application was also submitted formally on August 4, 2016. RCA is currently reviewing draft comments provided by Dudek staff on September 27, 2016. The other PSE application that may be submitted formally or informally in 2016 is for the Alberhill System Project.

Management Support

In partnership with the USFWS, and the San Diego Zoo Institute for Conservation Research, Dudek staff assisted in the preparation of a California Energy Commission (CEC) grant proposal titled “Assessing California’s mitigation guidelines for burrowing owls impacted by habitat development and project activities: better science, better conservation, better economic outcomes”. The study will provide information on the effectiveness of burrowing owl relocations in southern California and within the Plan area, and will support the RCA’s burrowing owl management objectives. Work is ongoing, including planning meetings, site selections, and telemetry tag testing.

FISCAL YEAR 2017 FIRST QUARTER REPORT**

Report Covers Period: 7/1/16 – 9/30/16

Services Provided During Current Work Period:

Public Information and Branding Services
Website Updating and Hosting

Branding Services:

Geographics updated and provided business cards for two employees.

Geographics began work on a new infographic brochure specific to property owners, *Before the Build—A Guide for the MSHCP and how it affects your property or project*. The work involved design, copywriting and illustration. Work is continuing into the second quarter.

A new tablecloth with the RCA logo was designed and produced by Geographics for staff use at events.

General information retractable banners (2) were designed for staff use at events. Work was begun on a second banner featuring species that is targeted to school-age children.

The main RCA brochure “What is RCA” was updated and 2,500 copies were printed.

During the fourth quarter, Geographics completed work on RCA’s annual newsletter. The newsletter was printed (1,700 quantity) and mailed to almost 600 contacts, and an accompanying e-newsletter was distributed through Constant Contact.

Website Hosting:

Geographics provided secure hosting with automatic backups for all three months of the quarter. During this quarter, the server was upgraded. The previous Windows server had drive and memory limitations, was on an older operating system, and was using 76.8GB of the 78.1GB available.

The website is now hosted on a 2GB General Purpose Server (dual core with 40 GB SSD storage) with a 1 GB dedicated MYSQL server (single core with 20 GB SSD storage). A dedicated MYSQL server will balance the load and reduce traffic spikes, and is easily expandable, if necessary, in the future.

Wrcrca.org currently has legacy documents going back to 2004. These documents were rarely accessed, but still need to be accessible for research and transparency. The files are now on a CDN or Cloud Files configuration – files are on a dedicated and managed server off-location. The files are accessed via normal HTTP URLs. This protects the website ensuring maximum website uptime and visibility.

Website Updates:

Various updates and modifications were made to the website during the fourth quarter. The updates included:

- New home page button (RFQ for Appraisal Services) design and programming
- Add stylesheet to agenda

Services Provided During Current Work Period:

152 Work Release Program hours were utilized during the First Quarter of FY2017

Patrol/Access Control/Maintenance

General

Menifee HMU

Efforts to establish a usable trail system without major impacts to the resources were on-going. On site meetings with trail users on the Win Mur 700 property went well and all were amicable to working towards a common plan that would establish set trails for future use.

San Jacinto HMU

Warren Road Partners, EMWD, Pico Thompson Ranch, and SJRR property were all attended to during the first quarter. Issues responded to and rectified ranged from trash pick up along the road side and within Warren Road Partners to removal of 55 gallon waste from SJRR property.

San Tim HMU:

WCB sign was installed on TNC Carmello property as required.

Hong: was inspected for access for the planned post-escrow cleanup. Coordination will have to be made with RCWD to access through a pumping station road. Removal of debris will be completed by utilizing RCA quad, trailer and plastic tow sled.

Cachia: 30 feet of fencing was installed to prevent unnecessary public access to the site. It looks like a few vehicles have made a small road into the parcel, which left unchecked will invite more interest.

Sage HMU

Bell/Weigle: Unauthorized OHV access was stopped with the installation of 2 gates. One illegal Mt. Biking trail was also closed off. One large marijuana grow was also prevented as Ranger staff removed 400 feet of new water tubing and metal cages.

Ranger Garcia came across signage on private property along Kersarge Road which advises any government agency to stay away. We have advised staff to exercise caution while in the area.

Work has been completed with 600 feet of fencing to protect the Gellar parcel on Reed Valley Road/Wilson Valley corner. The fencing will also cut off an access road to a wellhead on the property to the public. The work was prompted by motorcycle riders who ignored signage and continued crossing onto the property, re-riding trails that were starting to grow over near the corner. Staff is also looking at improving security measures at the Odegaard parcel, which has seen an increase in OHV activity.

Rangers continually patrolled Odegaard, Gellar, Winchester 700 Reed Valley, Anza Knolls United Five Star, Bergman, Rivera and Dorfner during the first quarter.

Cactus Valley HMU

Bautista Canyon: Rangers and Maintenance staff continued to spend a good deal of time keeping unwanted visitors away. SCE will remove the power poles that enter the property in the second quarter.

Habitat/Species Management

Gabrych: Site visit to assess vegetation and to take photos of the illegal road that was cut in 2015. Staff set up two photo points and took an up road and down road photo from each photo point. Plant species that are coming up out of the cut include California buckwheat (1), Chia (10 desiccated), Doveweed (5), Brittlebush (4), Sugar bush (1 stump sprouted) and Slender buckwheat (5). A restoration plan is now being completed and implemented by the guilty party who graded the illegal road.

Staff completed BUOW burrow check and maintenance.

WIN MUR 700: Invasive spp. removal. NRM and BMP staff completed two days of invasive removal and one day of surveying for turtles. No turtles were found and all of the pools were surveyed, seined or electro-fished.

CALMAT: Stink net growing in hydro seeded area has responded to treatment. We will have to watch it close to ensure that it does not set in like the SJWA and Lake Perris SRA. The remaining 1,000 gallons were used on the restoration plants. The plants are beyond established and this will be our last watering. We have established 60-70% survival rate so far and we expect that number to remain.

JPR6: 4.0 acres were mowed for SKR habitat improvement. This project has been on the list for a while now but now has been completed. Staff will mow this area in conjunction with the Cordova lower cabin SKR site, where plenty of SKR have been supported over the years. We may want to trap this area to see if the weight of the SKR has been affected by the drought.

Functional Riparian Mitigation Survey: Staff inspected suitable project sites in the SAG HMU to fill ACOE request. A list of the potential properties was given to the ACOE. We have not heard any feedback from the ACOE field day inspection.

Fire Management/Weed Abatement

Weed Abatement: Most of the work during the 1st quarter was comprised weed abatement to comply with County and City ordinances on various properties which included Greenwald, Shiang, Riverside Clark, El Casco, Vogel Cucuia and McElhinney Stimmel.

Acquisitions

Initial Site Inspections:

Davis, James and John: Only the south west corner marker was present. The other markers were missing or damaged. No trash on the property and no major issues. The property is comprised of a dry creek, oak woodland and grassland.

Ordonez: All witness markers were present. There may be access issue on the western parcel, dirt roads lead into the property with no limit of access. There was dumping on the property and a mine that need to be blocked and the previous owner completed all required work before the close of escrow.

Riverpark Parcels A: No witness markers are present. The property consists of disturbed agricultural land. There was no dumping on the site. There are water pipes and irrigation systems on the property. The eastern half of the property appears to be in use as an agriculture area with irrigation lines, running water, and sprayers in place. It looks like they are growing soy or some other type of legume. There is also a water catchment basin on site, which was dry at the time of the inspections.

Toscana Donation: Initial site inspection completed. All the witness markers are present. There is a small amount of trash on the property and some illegal access issues but no major issues. The trash is comprised of a pile of tile and an old wooden shelter and door and was cleaned up by the seller before the close of escrow.

Higgins Nuevo: The western most area had easy access and a lot of dumping. Dumping included mattresses, old bedding and clothing, metal frames from furniture, roofing material, tires (30), plastic containers and old wood. There is a cinder block structure on the property as well. All issues were cleaned up and made correct before the close of escrow.

SAWA – BIOLOGICAL MONITORING PROGRAM
FISCAL YEAR 2017 FIRST QUARTER REPORT**

Report Covers Period: 07/01/16 – 09/30/16

Services provided during current work period:

Conducted biological monitoring surveys for:

- Carnivores (mountain lion, coyote, bobcat, long-tailed weasel) via motion-triggered cameras in habitat linkages.
- Targeted Plummer's mariposa lily (*Calochortus plummerae*) and Mojave tarplant (*Deinandra mohavensis*) observations via area-constrained visual encounter surveys at conserved locations known or suspected to support covered rare plant species.
- Terrestrial herpetofauna via grid-based area searches for lizards and snakes. Experimenting with onduline roofing material at select sites.
- Delhi Sands flower-loving fly via visual encounter surveys along line-distance transects at recently occupied locations to confirm annual reproduction and determine density. In addition, habitat surveys via vegetation and soil sampling to clarify suitable habitat characteristics and track changes in site composition through time.
- Golden Eagle via United States Geological Survey (USGS) territory surveys.
- Nashville Warbler via point count surveys in the San Jacinto Mountains of the San Bernardino National Forest.
- Pond turtle via hand capture within appropriate aquatic habitat in a previously occupied area (Warm Springs).
- Aguanga kangaroo rat via live-capture trapping grids within modeled suitable habitat in Anza.
- Burrowing Owl habitat via vegetation and physical site topography sampling at successful 2015 breeding locations to clarify suitable habitat characteristics.

Collaborated with:

- Continue to coordinate with CA Department of Fish and Wildlife (CDFW) staff at the San Jacinto Wildlife Area (SJWA) regarding management of the Tricolored Blackbird breeding and foraging habitat.
- Collaborated with CDFW to produce comments and provide additional biological information for the SJWA Land Management Plan.
- Collaborated with CDFW staff at SJWA to conduct a botanic survey at a proposed mudflat restoration project site and provide recommendations based on results.
- Collaborated with USGS with their Golden Eagle territory surveys.
- Collaborated with RCA Management with the Delhi Sands flower-loving fly surveys.
- Collaborated with RCA Management with invasive removal at Warm Springs during a turtle survey effort.

- Collaborated with RCRC and others on current issues in a quarterly Santa Ana River and Orange County Weed Management Area meeting in September, including but not limited to discussions on creation of a list of invasive species for early detection, spread of the polyphagous shothole borer, and the upcoming spread and use of tamarisk beetles.
- Collaborated with other wildlife organizations and agencies on current issues in a quarterly Southern California Native Freshwater Fauna Working Group meeting in September, including but not limited to extent of the polyphagous shot hole borer along the Santa Ana River, successful Santa Ana sucker surveys in the Santa Ana River, successful translocation (breeding reported) for the mountain yellow-legged frog in the San Jacinto Mountains, and Malaysian trumpet snail establishment in the Cleveland National Forest.

Accomplishments:

- Gathered useful data for carnivores, rare plants, herpetofauna, Delhi Sands flower-loving fly, Aguanga kangaroo rat, and Burrowing Owl. Golden Eagle, Nashville Warbler, and pond turtle surveys did not result in detections.
- Met species 8-year objective for western whiptail and jackrabbit. Obtained 2 more observations for San Diego banded gecko, resulting in the need for only one more observation to meet the 8-year species objective. The gecko is normally extremely difficult to detect, but so far this year there have been roughly 3 times as many records, which is more than what had been found in the past 10 years combined. The reason for this increased detection is currently unknown.
- Hosted three monthly monitoring/management coordination meetings with local land managers and wildlife agency representatives.
- Completed 8 survey reports summarizing monitoring activities in 2015 to be included in RCA's Annual Report.
- Database documents created to better inform staff of the database operations and also guide staff with their gathering, entering, and checking of survey data as these activities relate to the database. Data review procedure was expanded to include required review by Program Leads prior to database certification.

MEMORANDUM

To: RCA
From: Dave Kennett
RE: July to September 2016 Activity Report
Date: October 3, 2016

RCA's government affairs agenda from July to September 2016 included these continuing efforts:

1. Support RCA's Efforts to Win Section 6 Grants while seeking an increase in federal grant funding for HCP land acquisition;
2. Pursuing federal legislative language to provide loans and loan guarantees for HCP land acquisition;
3. Fending off designation of critical habitat within the MSHCP.

RCA Wins Maximum Habitat Acquisition Grant; Signs Look Up for Future HCP Funding

In September, the US Fish and Wildlife Service (USFWS) announced that RCA won a \$2 million grant for habitat acquisition in the latest Section 6 competition. This was the second year in a row that RCA won the maximum award.

As we reported last quarter, Congressional support for the Section 6 program has solidified, with the Senate and House each passing a bill that would increase HCP funding. While we are still on target for that increase, the overall appropriations process stalled over the late summer, forcing Congress to pass a Continuing Resolution (CR) to keep the government open through December 9, 2016. I fully expect Congress to pass an Omnibus Appropriations bill that includes the Section 6 boost either during a lame duck session later this year or in early 2017.

Loan Language Update

We helped secure language in the Senate-passed Water Resources and Development Act (WRDA) that would make eligible for WIFIA loans and loan guarantees projects to "prevent, reduce, or mitigate the effects of drought, including projects that enhance the resilience of drought-stricken watersheds." The language would allow RCA to compete directly for WIFIA loans and loan guarantees.

As the Senate and House versions of WRDA are quite different, with the House bill being much smaller in scope, the two bills will need to go through a House/Senate conference. We anticipate that House and Senate staff are currently informally "pre-conferencing" their bills. We have reached out to key Senate and House staff to urge them to keep the language in the final joint package. A formal conference would take place in November or December. Before then, we will ask Rep. Ken Calvert to personally contact key decision-makers in the House and ask them to protect the language.

Critical Habitat Designations

Once again, USFWS did not issue any Critical Habitat Designations (CHDs) related to the MSHCP during this period and thus continues to adhere to its commitment to exclude MSHCP lands from CHDs for most threatened and endangered species.

I continue to work with local water agencies that are pursuing creation of an HCP for the sucker and other species along the Santa Ana River. Formation of the "Upper Santa Ana River Habitat Conservation Plan" should result in the removal of the sucker's CHD from the areas covered by your MSHCP. These agencies continue to hold regular stakeholder meetings on the plan that include USFWS staff.

As always, it is a pleasure to serve RCA as your full-service government affairs consultant. If this report brings rise to any questions, please do not hesitate to contact Dave Kennett at 202-320-1290.

Quarterly Contract Report

WESTERN RIVERSIDE COUNTY REGIONAL CONSERVATION AUTHORITY

July through September, 2016

At the close of this quarter, on September 28, the House of Representatives enacted H.R. 5303, a bill to re-authorize the Water Resources Development Act (WRDA). This action is significant for several reasons: despite partisan gridlock in both the House and Senate, H.R. 5303 gained a bi-partisan vote of 399-25; unlike the Senate companion bill (S. 2848), it adheres to the traditional formula for re-authorization of U.S. Army Corps of Engineers infrastructure projects, with minimal provision for policy directives and new programs; and does not include the Senate-passed **WIFIA amendment which authorizes funding for the acquisition of drought-resilient habitat**. Members will recall that this provision in the Senate bill had been sought by the Authority as another means by which to finance the completion of the Western Riverside MSHCP.

A Conference Committee will be required to reconcile the differences between the Senate and House bills, which are substantial. Although skeptics are unsure whether a Conference Committee could be convened to successfully complete its work during the post-election "lame duck" session, the chairs of relevant committees (Environment and Public Works in the Senate, and Transportation and Infrastructure in the House) have expressed confidence that an **acceptable Conference bill** can be drafted and enacted before year's end. The Authority's principal objective during this period will be to assure survival of the drought-related amendment to WIFIA, as contained in the Senate bill. To this end, the Authority's representatives will work with members of the Committee staffs as they prepare for the Conference, and with Members who have supported the Authority's land acquisition program, including Senators Feinstein and Boxer, and Representative Calvert.

Enactment of the Senate provision, authorizing WIFIA support for the acquisition of habitat to "prevent, reduce or mitigate the effects of drought..." would greatly expand opportunities for the Authority's use of WIFIA in the protection of designated MSHCP habitat. The Authority had earlier secured an amendment which provides for the acquisition of habitat in conjunction with otherwise eligible water infrastructure projects, but the new language expands the likely utility of this facility. Authority staff suggest that much of the MSHCP habitat which remains to be acquired would fall within the stated purposes of the drought provision. Assuming enactment of this provision, it will be necessary to assure that **implementing regulations**, to be drafted by EPA, would contemplate ready availability of this funding source. As Members will recall, consultants and staff have already met with EPA personnel to assure that the earlier water-related provision of WIFIA will likewise be applicant-friendly.

Other Matters of Current Interest

In its position as a leader of the California and National HCP Coalitions, the Authority has participated in recent activity which relates to improvements in HCP policy and practice. Among these is Coalition comment on the recently-released draft of a revised **HCP Handbook**. The Handbook was published in 1996, and has not been revised until now. At its first annual meeting in November of 2015, the National Coalition urged adoption of a Handbook which reflects emerging

trends among practitioners, and resolution of procedural obstacles. Among these is the possibility of **permit integration or alignment**, by which HCP sponsors would gain permits beyond those which are required under sections 7 and 10 of the Endangered Species Act (ESA). Where section 404 permits are also required, for instance, by the Clean Water Act (CWA), HCP plans could be deemed to meet the requirements of both the ESA and CWA, avoiding the necessity of duplicative permit applications. The draft Handbook makes mention of this possibility, but does not go so far as to incorporate the more prescriptive language which had been suggested by the Coalition. The Coalition has repeated its suggestion in comments on the draft Handbook, and has prepared a draft memorandum of agreement between the U.S. Fish and Wildlife Service and the U.S. Army Corps of Engineers to sanction such permit integration. This draft memorandum, and the possibility of a Presidential directive, were discussed by the Authority's representative with Timothy Male, of the Council on Environmental Quality, at a meeting in July. Male encouraged contact with **Paul Souza, the newly-appointed Regional Director** of the Fish and Wildlife Service in Sacramento. At a subsequent meeting with the Executive Director and others, Souza affirmed his support for the MSHCP and for permit integration. He is expected to be generally more sympathetic to the Authority's objectives than was his predecessor, and has adopted an "open door" policy with regard to matters of mutual interest.

In September, the Executive Director and this consulted participated in a symposium which marked the **20th anniversary of the Central Coast Orange County Natural Communities Conservation Plan (NCCP)**, the first large-scale plan to simultaneously meet species and habitat protection requirements of state and federal law. The Western Riverside MSHCP was also recognized at the symposium as another successful example of this approach to mitigation of development impacts, which model is now being emulated elsewhere in California and across the United States.

Although the Congressional appropriations process for fiscal year 2017 remains unsettled, with the Congress having adopted a short-term continuing resolution to fund government operations through December, an omnibus appropriations bill for the balance of the fiscal year (through September 30, 2017) may be enacted during the lame duck session. The continuing support of Representative Calvert for **section 6 funding**, which provides support for the Authority's land acquisition program, makes it likely that funding will continue in the new fiscal year at an acceptable level.

RECOMMENDATION TO REVISE THE RCA CRITERIA REFINEMENT POLICY

Regional Conservation Authority**RECOMMENDATION TO REVISE
THE RCA CRITERIA REFINEMENT POLICY****Staff Contact:****Michelle Ouellette, General Counsel
(951) 686-1450****Background:**

Under Section 6.5 of the MSHCP, the RCA and County/Cities are authorized to undertake a refinement of cell criteria, when such a refinement is necessary to facilitate Reserve Assembly. In March, 2006 and again on October 1, 2007, the Board adopted a policy governing how the RCA undertakes a criteria refinement and the role of the RCA Board in the process.

Since 2007, the RCA has processed several criteria refinements. Given the complex nature of these actions, staff and legal counsel believe that further clarification of the process is necessary to provide more certainty to the RCA, Permittees and developers. The revisions will also help to streamline the process.

Staff Recommendation:

That the RCA Executive Committee –

- 1) Recommend that the RCA Board of Directors adopt Resolution No. XXXX-XXX, *Resolution of the Board of Directors of the Western Riverside County Regional Conservation Authority Adopting an Updated Criteria Refinement Process Policy*; and
- 2) Authorize staff to agendize this matter for the November 7, 2016 meeting of the RCA Board of Directors.

REVISED XXX 2016

CRITERIA REFINEMENT POLICY

Article I. Criteria Refinement Clarification Policy

Section 1.01 Cell Criteria are intended to be flexible; however, there will be instances where refinements to the Criteria are desirable to facilitate Reserve Assembly. The Criteria Refinement Process contained in Section 6.5 of the Plan shall apply. This policy is intended to clarify the process set forth in Section 6.5 of the Plan.

Section 1.02 Permittees are authorized under the Plan to propose a refinement of the Cell Criteria pursuant to Section 6.5. Permittees may process a Criteria Refinement directly, subject to the requirements below or may request that the RCA undertake the Criteria Refinement process.

Section 1.03 When the RCA agrees to undertake a Criteria Refinement on behalf of a Permittee, the cost shall be borne by the requesting Permittee or development project applicant, unless the RCA Board makes one of the following findings at the time of initiation of the Criteria Refinement:

- (a) The Criteria Refinement will affect other areas of the Plan outside the jurisdiction of the requesting Permittee through the acquisition of replacement conservation land.
- (b) The Criteria Refinement will likely result in significant long-term reduction in land acquisition costs.

Section 1.04 If a Criteria Refinement is proposed as a result of a particular development project, the Local Permittee's Habitat Evaluation and Acquisition Negotiation Strategy (HANS) or equivalent process and the Joint Project Review process must be completed prior to the initiation of the Criteria Refinement Process.

Section 1.05 The term "affected party" in Section 6.5 of the Plan means the Requesting Permittee, other affected Permittee(s), the Wildlife Agencies, property owners that own property in the Cells where the Criteria are proposed for change, and any person or organization that has requested a copy of the report set forth in Section 1.07 (a).

Section 1.06 The following procedures shall apply to all Criteria Refinements:

- (a) Using the project information materials submitted by the Permittee required under Section 6.5 of the Plan, the RCA shall prepare a draft biological evaluation and equivalency analysis report that examines the quality of the habitat on the site in question and the quality of the habitat on the replacement land. The preparation of the report shall be paid for by the requesting Permittee or the development project applicant.
- (b) The RCA Executive Director shall prepare, and distribute the draft report of habitat equivalency and initial findings, to the Permittee, other affected Permittee(s), the Wildlife Agencies, property owners directly affected by the Criteria Refinement and any person or organization that has requested a copy of the report.
- (c) The RCA will provide the parties set forth in subsection (b) above 60 calendar days to review the draft report. However, the 60-day review period may be waived if the Permittee, the RCA, affected Permittees, Wildlife Agencies and affected property owners are in agreement regarding the Criteria Refinement.
- (d) Within 30 calendar days of the close of the 60-day review period, the RCA shall hold a meeting to meet and confer with the Permittee(s) and the Wildlife Agencies to discuss the draft report, consider conservation alternatives, and attempt to resolve any outstanding issues. This meeting may be waived if the parties are in agreement regarding the Criteria Refinement.
- (e) In the event the parties are in agreement regarding the Criteria Refinement or resolve any disputed issues at the meet and confer meeting described in subsection (d) above, the RCA Executive Director shall issue his or her final report on the Criteria Refinement subject to final action on the findings by the RCA Board after the Permittee has acted on the related Permittee or development project and completed environmental review as the lead agency under the California Environmental Quality Act ("CEQA").
- (f) In the event the parties are unable to resolve the disputed issues at the meet and confer meeting described in subsection (d) above, the Criteria Refinement may be sent to the Ad Hoc Committee as described in Section 6.6.2 E for final determination.
- (g) The Ad Hoc Committee shall hold a meeting on the proposed Criteria Refinement within 30 calendar days. The Permittee, the Wildlife Agencies, affected Permittees, any property owners directly affected by the proposed Criteria Refinement, and any person or organization that has requested notice shall be notified in writing of the date, time and place of the meeting.

- (h) At the conclusion of the Ad Hoc Committee meeting, the Committee shall issue a determination on the Criteria Refinement that will be included with the report and other materials submitted to the RCA Board. The RCA Board shall not make a final determination on the Criteria Refinement until after the Permittee has acted on the related Permittee or development project and completed environmental review as the lead agency under CEQA. The Permittee or development project applicant shall fully indemnify the RCA in any legal actions challenging the Criteria Refinement.
- (i) The final determination of the RCA Board expressed in Section 6.5 of the Plan is not an approval or denial of the Criteria Refinement, but an acceptance or rejection of the following findings:
 - i) The criteria refinement report adequately and objectively addresses the biological issues associated with the refinement, including but not limited to the biological issues listed in 1) through 7) of the "Equivalency Analysis" in Section 6.5 of the Plan;
 - ii) The equivalency analysis adequately and objectively evaluates prospective replacement conservation land.
 - iii) The report is prepared in conformance with the Plan.
 - iv) The modifications to the criteria do not rise to the level of an amendment to the Plan and do not reduce the Criteria Area.
 - v) The prospective replacement conservation land is biologically equivalent or superior to the land being removed from conservation.
 - vi) The Criteria Refinement results in equivalent or greater conservation value and acreage within the Conservation Area.
 - vii) The replacement conservation land has been secured for permanent conservation by an option agreement, escrow instructions, fee title, conservation easement or similar documents which demonstrate agreements or control over the replacement conservation land; and the Wildlife Agencies have concurred with the refinement, if the replacement conservation land is outside the Criteria Area.
 - viii) The RCA Board action shall be reported in writing to the Permittee.
- (j) When the RCA Board has made the findings identified above with respect to a project Criteria Refinement and the equivalent or superior replacement conservation land is secured in permanent conservation, then the Criteria Refinement is deemed complete, and the project site is no longer subject to reserve assembly requirements, but is subject to other Plan requirements.

- (k) Nothing contained herein shall interfere with the Permittee's local land use authority over the future use of the project site.

CRITERIA REFINEMENT CLARIFICATION POLICY

Article I. Criteria Refinement Clarification Policy

Section 1.01 Cell Criteria are intended to be flexible; however, there will be instances where refinements to the Criteria are desirable to facilitate Reserve Assembly. The Criteria Refinement Process contained in Section 6.5 of the Plan shall apply. This policy is intended to clarify the ~~procedure~~process set forth in Section 6.5 of the Plan.

Section 1.02 Permittees are authorized under the Plan to propose a refinement of the Cell Criteria pursuant to Section 6.5. Permittees may process a Criteria Refinement directly, subject to the requirements below or may request that the RCA undertake the Criteria Refinement process.

~~**Section 1.03** A request for the RCA to undertake a criteria refinement must be approved by the RCA Board.~~

Section ~~1.04~~1.03 When the RCA agrees to ~~carry out~~undertake a Criteria Refinement on behalf of a Permittee, the cost shall be borne by the requesting Permittee or development project applicant, unless the RCA Board makes one of the following findings at the time of initiation of the Criteria Refinement:

- (a) The Criteria Refinement will affect other areas of the Plan outside the jurisdiction of the ~~Sponsoring~~requesting Permittee through the acquisition of replacement conservation land.
- (b) The Criteria Refinement will likely result in significant long-term reduction in land acquisition costs.

Section ~~1.05~~1.04 If a Criteria Refinement is proposed as a result of a particular development project, the Local Permittee's HANsHabitat Evaluation and Acquisition Negotiation Strategy (HANS) or equivalent process and the JPRJoint Project Review process must be completed prior to the ~~RCA beginning~~initiation of the Criteria Refinement Process.

Section ~~1.06~~1.05 The term "affected party" in Section 6.5 of the Plan means the Requesting Permittee, other affected Permittee(s), the Wildlife Agencies, property owners that own property in the Cells where the Criteria are proposed for change, and any person or organization that has requested a copy of the report set forth in Section 1.07 (a).

Section 4.071.06 The following procedures shall apply to all Criteria Refinements ~~processed by the RCA:~~

- (a) Using the project information materials submitted by the Permittee required under Section 6.5 of the Plan, the RCA ~~will~~ shall prepare a draft biological evaluation and equivalency analysis report that examines the quality of the habitat on the site in question and the quality of the habitat on the replacement land. The preparation of the report shall be paid for by the requesting Permittee or the development project applicant.
- (b) The RCA Executive Director shall prepare, and distribute ~~at~~ the draft report of habitat equivalency and ~~its~~ initial findings, to the Permittee, other affected Permittee(s), the Wildlife Agencies, property owners directly affected by the Criteria Refinement and any person or organization that has requested a copy of the report.
- (c) The RCA will provide the parties set forth in subsection (b) above 60 calendar days to review the draft report. However, the 60-day review period may be waived if the Permittee, the RCA, affected Permittees, Wildlife Agencies and affected property owners are in agreement regarding the Criteria Refinement.
- (d) Within 30 calendar days of the close of the 60-day review period, the RCA shall hold a meeting to meet and confer with the Permittee(s) and the Wildlife Agencies to discuss the draft report, consider conservation alternatives, and attempt to resolve any outstanding issues. This meeting may be ~~omitted~~ waived if the parties are in agreement regarding the Criteria Refinement.
- (e) In the event the parties are in agreement regarding the Criteria Refinement or resolve any disputed issues at the meet and confer meeting described in subsection (d) above, the RCA Executive Director shall issue his or her final report on the Criteria Refinement subject to final action on the findings by the RCA Board after the Permittee has acted on the related Permittee or development project and completed environmental review as the lead agency under the California Environmental Quality Act ("CEQA").
- (f) In the event the parties are unable to resolve the disputed issues at the meet and confer meeting described in subsection (d) above, the Criteria Refinement may be sent to the Ad Hoc Committee as described in Section 6.6.2 E for final determination.
- (e)(g) ~~The RCA Board~~ Ad Hoc Committee shall ~~conduct a public hearing~~ hold a meeting on the proposed Criteria Refinement within 30 calendar days ~~of the meeting referenced above~~. The Permittee, the Wildlife Agencies, affected Permittees, any property owners directly affected by the proposed Criteria Refinement, and any person or organization that has requested notice shall be notified in writing of the date, time and place of the hearing ~~meeting~~.

(h) At the conclusion of the Ad Hoc Committee meeting, the Committee shall issue a determination on the Criteria Refinement that will be included with the report and other materials submitted to the RCA Board. The RCA Board shall not make a final determination on the Criteria Refinement until after the Permittee has acted on the related Permittee or development project and completed environmental review as the lead agency under CEQA. The Permittee or development project applicant shall fully indemnify the RCA in any legal actions challenging the Criteria Refinement.

~~(f)~~(i) The final determination of the RCA Board expressed in Section 6.5 of the Plan is not an approval or denial of the Criteria Refinement, but an acceptance or rejection of the following findings:

- i) The criteria refinement report adequately and objectively addresses the biological issues associated with the refinement, including but not limited to the biological issues listed in 1) through 7) of the "Equivalency Analysis" in Section 6.5 of the Plan;
- ii) The equivalency analysis adequately and objectively evaluates prospective replacement conservation land.
- iii) The report is prepared in conformance with the Plan.
- iv) The modifications to the criteria do not rise to the level of an amendment to the Plan and do not reduce the Criteria Area.
- v) The prospective replacement conservation land is biologically equivalent or superior to the land being removed from conservation.
- vi) The Criteria Refinement results in equivalent or greater conservation value and acreage within the Conservation Area.
- vii) The replacement conservation land has been secured for permanent conservation by an option agreement, escrow instructions, fee title, conservation easement or similar documents which demonstrate agreements or control over the replacement conservation land; and the Wildlife Agencies have concurred with the refinement, if the replacement conservation land is outside the Criteria Area.
- viii) The RCA Board action shall be reported in writing to the Permittee.

~~(g)~~ (j) When the RCA Board has made the findings identified above with respect to a project Criteria Refinement and the equivalent or superior replacement conservation land is secured in permanent conservation, then the Criteria Refinement is deemed complete, and the project site is no longer subject to reserve assembly requirements, but is subject to other Plan requirements.

(h) (k) Nothing contained herein shall interfere with the Permittee's local land use authority over the future use of the project site.
