7. PROFESSIONAL SERVICES FOR HABITAT CONSERVATION PLANNING

Aaron Gabbe, Regional Conservation Director, provided a presentation on Professional Services for the Strategic Improvement Assessment and Action Plan. The Western Riverside Multiple Species Habitat Conservation Plan (MSHCP) is an ambitious plan vital to supporting smart, regional growth in Western Riverside County while protecting threatened and endangered species and their habitats. The MSHCP is one of the largest in the country, protecting in perpetuity 500,000 acres implicitly to provide habitat for the 146 species covered by the plan. To date, the plan has been a success. The MSHCP has protected over 68,000 acres of Additional

Western Riverside County Regional Conservation Authority Board Meeting Minutes January 8, 2024 Page 3

Reserve Lands (ARL) at a cost of over \$570,000,000, while also streamlining the development of over 100,000 acres of vital housing and infrastructure.

The plan was developed over 20 years ago, and while the MSHCP remains as important today as it did when it was developed, some of the assumptions used are no longer accurate. It was always anticipated that the MSHCP would need to be refined as conditions changed. Examples of outdated assumptions that affect plan implementation include the pace of development and corresponding revenue, land acquisition costs, the extent of land donated or exchanged for incentives through the development review process, areas prescribed for conservation have been degraded with time, and the slower pace of state and federal funding for land acquisition.

These outdated assumptions, in part, are affecting the MSHCP implementation. For example, the Development Habitat Evaluation and Acquisition Negotiation Strategy (HANS) process provides little flexibility to the RCA to make acquisition decisions based on habitat quality or cost. This could force the RCA to expend its' limited resources in a manner that may not result in the most effective way to achieve the goals and objectives of the MSHCP.

On May 1, 2023, the RCA Board directed staff to hire a consultant to conduct a Strategic Improvement Assessment and Action Plan (SIAAP) and include funding in the Fiscal Year 2023/2024 Budget. At the time, staff anticipated that the fiscal impacts would range from \$400,000 to \$800,000. The primary objective of the SIAAP study is to identify and recommend pathways that the RCA and other permitees may take to improve MSHCP implementation and flexibility, while maintaining financial flexibility and permit compliance. The primary focus of the SIAAP study will be the HANS process, though ultimately, solutions may result in other changes to the MSHCP implementation. The consultant will evaluate the Development HANS process to identify factors that may limit RCA's flexibility in the land acquisition process. Ultimately, RCA does not know what the SIAAP study will find, so it is unknown what changes may be recommended.

However, potential solutions may involve policy or process improvements that could be modified within the RCA Board's purview and authority, including securing additional sources of funding for land acquisition or a new Nexus Study and a potential fee increase, and possibly a major amendment.

Major SIAAP activities that the consultant and RCA staff will support include regular meetings with staff from U.S. Fish and Wildlife Service and the California Department of Fish and Wildlife to better understand that intricacies of the MSHCP, implementation challenges, and identifying potential recommendations and solutions. Review of the MSHCP, extensive documentation, and supporting materials to understand implementation challenges and alternative solutions will also be completed. The breadth and scope of HANS related implementation challenges will be identified, and the permitees ability to achieve MSHCP goals, requirements and functions as intended. Multiple alternative solutions will be identified to address implementation issues and tradeoffs for each alternative. The best alternative(s) will be presented to the Board and could be implement to improve the Development HANS process and inter-related aspects of the

MSHCP. The consultant will work close with RCA to evaluate alternatives and identify the best path forward to recommend to the Board. Finally, the study will include preparing an administrative and final draft SIAAP. If the Board determines that a major amendment is needed to address Development HANS issues, the consultant will also prepare a scope of work to develop a major amendment to the MSHCP and prepare a Section 6 Planning Grant application.

RFP No. 24002 for Professional Services for Habitat Conservation Services was release by RCA staff on August 29, 2023. The RFP was downloaded by 49 firms, 7 of which were from Riverside County. Two firms submitted responsive proposals prior to the submittal deadline of October 10, 2023. Based on Evaluation Committee's assessment of the written proposals, both firms were shortlisted and invited to interview. Subsequently, the Evaluation Committee determined ICF Jones & Strokes, Inc. to be the most qualified firm to provide Professional Habitat Conservation Planning Services in support of the development of an SIAAP study.

The fiscal impact is spread across two fiscal years. It is estimated the impact to FY 23/24 to be \$288,586 and FY 24/25 to be \$288,585 for a total of \$577,171, plus \$30,000 for contingency for a total amount not to exceed \$607,171. This project was included in the FY 23/24 Budget, and funding for FY 24/25 will also be included in the budget that will be presented to the Board in June 2024.

Board Member Stewart wanted to know who created the HANS process and whether the RCA had the ability to make changes to the process.

Anne Mayer, Executive Director, stated that the RCA created the HANS process as part of MSHCP, so it is imbedded therein. RCA does not have the ability to make changes to the process because the MSHCP and requirements contained in it are the basis for the permits from the U.S. Fish and Wildlife and California Fish and Wildlife. RCA does not have the ability to change the process without going through the major amendment process. RCA wants to evaluate the MSHCP to see where challenges lie, identify solutions, and whether there are opportunities for a major amendment.

Board Member Jeffries noted that RCA would be paying a consultant a sizeable amount of money to learn about the MSHCP process and having them talk to Wildlife Agency staff who is likely to oppose any and all changes. It was not mentioned that the consultant would be talking to County or City staff and some of the original architects of this agency and its' purpose, nor any of the stakeholders. For that kind of money, they should be engaging with more folks that what has been listed.

Aaron Gabbe noted that was a great point, and the presentation failed to mention the full suite of who would be contacted, though a stakeholder outreach process will be started. There are a lot of perspectives to learn, and it will be ensured that the consultant team including RCA will seek feedback from multiple stakeholders.

Board Member Holliday wanted to know what the expected time frame for completion of the study and if there would updates on the study's progress. Aaron Gabbe stated this process is being fast-tracked so there is one-year to complete this study, but there is additional time on the contract if the Board elects to proceed with additional work such as a major amendment. The consultant will absolutely be providing updates to RCA of the progress of the study.

Board Member Spiegel expressed concern and wanted confirmation that the expanded stakeholder outreach was going to happen and that the updates should be provided to the Board to have that communication tool on a regular basis.

Board Member Washington recalled that through the 1990's there was a lot of development occurring but there were significant challenges to development because each had to get their own permits and deal with the environmental agencies. The MSHCP, when it was first introduced, was thought to be a good idea. The RCA should not lose sight of why the plan was first started just because 20 years have passed, and everyone has forgotten how bad it used to be.

Board Member Krupa agreed with much of what the previous Board Members have said. There is good, bad, and ugly associated with the MSHCP, but to enlist the commentary and wisdom of those that were involved in the beginning and who have stayed involved, it is imperative to get them involved and get their expertise. Hopefully, positive changes can be made to the MSHCP.

Board Member Stewart wanted to know if there was going to be a sub-committee attached to this process to bring up questions and additional thoughts from the Board. A sub-committee would be nice to be able to get input on the process prior to it being completed and give the consultant a chance to ask questions of the Board.

Anne Mayer stated that RCA had not thought of a creating a sub-committee yet, but there is the Executive Committee that could be used. There is a keen interest in receiving regular updates for the Board, which can be done on a regular basis. It was suggested that RCA could set up interviews with each Board Member to ensure the consultant is catching the individual thoughts and concerns. As the process starts, depending on the number of questions or concerns, a sub-committee could be established, it would be up to the Board and the Chair.

Board Member Jeffries wanted to remind everyone what led the RCA to this contract approval today. The finances of the RCA are at maximum limitations and in order to comply with future acquisition requirements, RCA has to have the finances. RCA has already bought all the low hanging fruit and RCA is now buying the most expensive land in Riverside County. RCA is also having to buy disturbed land that has no habitat on it because it is in a criteria cell. The purpose of this contract is trying to save RCA from itself and the Wildlife Agencies that are imposing the required land purchases.

Board Member Spiegel agreed with Board Member Jeffries comments. The job of the RCA is to acquire 500,000 acres and protect 146 species, and there have been areas that do not have

anything and have been disturbed, but RCA is required to purchase them. The concern with forming a sub-committee is that not everyone could participate, yet the entire Board should be familiar with the conversations. There are people in our districts that will be approaching Board Members, so having regular input from the consultant would be critical. A sub-committee would be ok, but it should not lessen the involvement from the rest of the Board.

Chair Bash added that no one could anticipate that people would become familiar with the plan and would in turn use it against the RCA. There was a time when building was stagnant in the City of Norco, but then the MSHCP came and remedied the situation. With people using the plan against the RCA, it must start to protect itself and continue to fight for the plan, future development, and ways to grow the Inland Empire.

M/S/C (Holliday/Spiegel) to:

- Award Agreement No. 24002 to ICF Jones & Stokes, Inc. to provide professional habitat conservation planning services for a two-year term, in the amount of \$577,171, plus a contingency amount of \$30,000, for a total amount not to exceed \$607,171 to prepare a Strategic Improvement Assessment and Action Plan (SIAAP);
- 2) Authorize the Chair or Executive Director, pursuant to legal counsel review, to finalize and execute the agreement, on behalf of the RCA; and
- 3) Authorize the Executive Director, or designee, to approve contingency work up to the total not to exceed amount as required for these services.

8. SELECTION OF EXECUTIVE COMMITTEE MEMBERS

Board Member Stewart and Board Member Morabito volunteered to serve on the Executive Committee.

The selections for the Executive Committee were approved by unanimous vote.

Anne Mayer, Executive Director, stated that they are currently 5 members on the Executive Committee: Chair Bash, Vice Chair Spiegel, Past Chair Johnson, Board Member Stewart, and Board Member Morabito. There are still 2 additional vacancies, if any Board Members are interested in joining, they should contact RCA staff. The bylaws do state that there must be at least 2 County Supervisors on the Executive Committee, so one more must be appointed.

9. BOARD OF DIRECTORS / EXECUTIVE DIRECTOR REPORT

Anne Mayer, Executive Director, wished everyone a Happy New Year and shared that each Board Member received a copy of RCA's Basic Financial Statement with the Independent Auditor's Report.

For the contract item that was approved today, staff has clearly heard the Board's concerns about stakeholder outreach, gathering information, and making sure staff is staying in touch with the Board to ensure the study is on the right path.

10. CLOSED SESSION

At this time, Steve DeBaun, legal counsel, announced the Board will be going in to Closed Session to discuss the property item on the agenda.

November 2023 REPORT

Inflation Finally Cooling

November began with a Federal Open Market Committee (FOMC) rate decision where Fed officials held their benchmark rate steady in the range of 5.25% to 5.50% and left the door open to more tightening as Powell said there's a long way to go to get inflation back down to target. Even so, many investors seemed focused on what they saw as dovish elements, including the missing update to their dot plot (graph that shows Fed's rate forecasts).

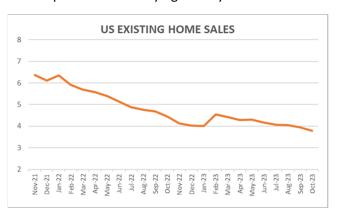

Several economic indicators suggest the United States' pace of economic growth is beginning to slow. The labor market drew the most attention. After September's surprising surge, nonfarm payrolls advanced at a more moderate 150,000 net new jobs. Strike activity, particularly the UAW strike, looks to have suppressed overall hiring during the month. Total payrolls rose 1.9% year-over-year, the slowest annual change since early 2021. The number of payrolls added over the prior two months was also revised down by a hefty 101,000.

While maximum employment is generally considered the Fed's number one mandate, the second most important component observed is inflation. November's inflation releases continued to decelerate. The Consumer Price Index (CPI) year-over-year rate slipped by a half a percentage point to 3.2% after the prior month's 3.7% year-over-year rate. The softer than expected CPI report is good news for the Fed and reinforces the market's belief that the FOMC has ended its hiking cycle.

Here in the Riverside metropolitan area, inflation has not changed over the last two months, but was up more than 4% in the last year, according to the U.S. Bureau of Labor Statistics. Their report showed energy costs dropped 6% driven primarily by a drop in prices at the gas pump. Food prices dropped slightly, "influenced by lower prices for meats, poultry, fish and eggs, and fruits and vegetables." Shelter rose 1.3% during the period.

With the rate of inflation still well above the Fed's target, some argue we may still have some time before we see the Fed cutting rates again. This view may help explain mortgage rates that continue to remain elevated, causing affordability issues in the housing market. Existing home sales dropped 4.1%, the fifth consecutive monthly decline. The 3.79-million-unit pace registered during the month was the slowest pace of home buying activity since 2010.

Fixed income markets reacted across the curve as the 2-year Treasury yield began November at 4.95% and ended the month at 4.68%. The 5-year Treasury yield began the month at 4.65% and dropped to 4.27% by month-end. Stock markets rose as the Dow Jones Industrial Average began the month at 33,275 and ended the month at 35,950.

DECEMBER 2023 REPORT

2023 Ended with Growth and Inflation Slowing

In March 2020, the Federal Open Market Committee (FOMC) implemented its Zero Interest Rate Policy to support markets and bolster the availability of credit to households and businesses in the Covid era. Investment returns for conservative investors like the Riverside County Treasurer's Pooled Investment Fund, were constrained from such historically low interest rates.

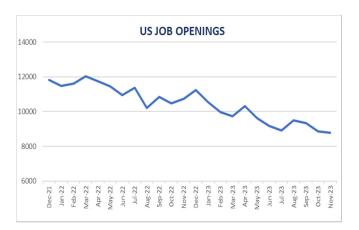

The FOMC finally relinquished their zero percent interest floor two years later on March 16, 2022, and by July 2023 and 11 hikes later, the Fed Funds Rate had climbed to a range of 5.25-5.50%. For a third consecutive time, the FOMC left this rate unchanged at its December meeting. While these normalized rates are producing income for bond investors, these money managers now speculate how much longer they can continue to benefit from today's more attractive interest rate environment. Fed Funds Futures trading now suggests that there may be a 25-basis point cut as early as March 20, followed by continued cuts, implying a Fed Funds target of 3.75% by December of 2024.

While the FOMC balances its fight against inflation with the promotion of full employment, market participants see the scales tipping toward an easing cycle. Some interest rates are already moving lower. December month-end mortgage rates, for instance, slipped to just under 7% from a recent high of 8.09% in October, giving a boost to the housing market. Existing home sales ended a five-month streak of declines and rose 0.8%. Home builders are giving mortgage rate buydowns as they expect lower rates soon making new home sales more attractive. Another sign of new life in the housing market is here in Riverside County where a new home's median price rose 1.6% to \$550,000 and sales volume increased 1.9% to 2,499 transactions.

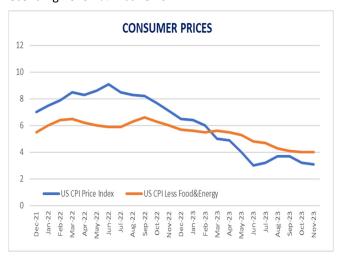

A key United States employment indicator showed stability in the labor market. Non-farm payrolls continued at roughly 200k monthly job growth pace, about where it had been for all of 2023.

Another measure however, Job Openings and Labor Turnover Survey (JOLTS) reported total job openings tumbled to 8.7 million, the lowest level since March 2021. As demand for new workers falls, businesses have an easier time holding onto their existing workers. The normalization in labor supply and demand has taken some heat out of wage growth. On a year-ago basis, the Average Hourly Earnings Index showed

growth held steady at 4.0%, the lowest since June 2021.

The Consumer Price Index showed inflation rose just 0.1% month over month and 3.1% on an annual basis. Declining gasoline prices and moderating food costs have been the main drivers of slowing inflation of late. Inflation, while still higher than the FOMC's target, seems to be approaching a more reasonable pace and is significantly improved from a recent high of 9.1% in June 2022.

In Treasury market trading, the 2-year note began the month at a yield of 4.54% and ended at 4.25%. 5-year notes began the month at a yield of 4.12% and ended at 3.85%. Stocks rose sharply in December with the Dow Jones Industrial Average starting the month at 36,150 and ending at 37,690.

CONSULTANT REPORT DUDEK FISCAL YEAR 2023/2024 SECOND QUARTER REPORT

Report Covers Period: October 1, 2023 to December 31, 2023

Services Provided During Current Work Period:

Joint Project Reviews

As part of our ongoing duties related to Western Riverside County Multiple Species Habitat Conservation Plan (MSHCP) implementation for the Western Riverside County Regional Conservation Authority (RCA), Dudek continued to provide review of biological reports, analyses, and submittals related to Joint Project Reviews (JPRs) by Permittees (e.g., cities, County, etc.). Dudek reviewed, provided comments, and completed JPRs for Permittees during this reporting period.

During the second quarter, the following number of JPRs were completed or supported: two in November, and one in December. No JPRs were completed by Dudek in October. This number only reflects those that were completed and finalized. There are many JPRs that are in process across any given quarter with all responses to Permittees occurring within 14 days.

Permittee Support

Dudek assists the RCA in providing training and support to Permittees on MSHCP implementation; however, no training sessions were conducted this quarter.

Monthly meetings with the Riverside County Environmental Programs Department (EPD) are ongoing. These meetings are a forum to discuss upcoming or ongoing County Habitat Acquisition and Negotiation Strategy (HANS)/JPRs, conservation criteria, and other Permittee requirements to facilitate MSHCP consistency. Dudek attended the October 4, 2023 RCA and EPD meeting this quarter.

Additional separate meetings or conference calls were held with RCA, Dudek, Wildlife Agencies, Permittees and/or applicants and their consultants including, but not limited to Cajalco Road Widening and Safety Enhancement Project JPR, HANS220010/PPT200033 JPR, LEAP 2020-02; East Lake Villas JPR, PA22-0929/Boutique Hotel JPR, Perris Logistics Center (PLC) South JPR, LEAP 2023-03 / Railroad Canyon Village JPR, Green River Ranch Business Park JPR, LEAP 2023-01/Collier Retail Shops JPR, DPR 22-00018 Light Industrial Ellis Ave JPR, TTM 36841/Rancho Diamante JPR, Skyview Road Pedestrian Bridge JPR Amendment, and HANS 220026/HANS Lite 02237 Fredericks Ridge JPR Amendment.

Dudek also has calls with applicants and/or their consulting biologists for projects regarding MSHCP implementation and compliance questions. Dudek fields questions on an ongoing basis related to new projects, ongoing projects, and/or past projects, both inside and out of the criteria area. Dudek also provides assistance regarding how the MSHCP review process works in coordination with the CEQA process.

Pre-Application Meetings

Dudek did not attend the Pre-Application Meetings with the RCA, U.S. Army Corps of Engineers, Regional Water Quality Control Board, California Department of Fish and Wildlife (CDFW) and U.S. Fish and Wildlife Service (USFWS) staff during the second quarter.

Wildlife Agency Coordination and Meetings

Dudek attended the October 19, 2023 monthly meeting with the RCA, USFWS and CDFW.

Additionally, in this reporting period, Dudek provided documentation and support to CDFW and USFWS related to ongoing projects and questions on MSHCP implementation.

During this reporting period, Dudek was involved in discussions on various projects, particularly those with substantial issues. Dudek works closely with Tricia Campbell (Regional Conservation Deputy Director) and other RCA staff to assist with past and ongoing JPRs, PSEs, and CRs, as well as develop report templates and checklists, facilitate Permittee and biological consultant coordination and training, train new staff, and ensure consistency with MSHCP implementation procedures, including Reserve Assembly (Cell/Cell Group/Subunit) analysis standards. In addition to all the aforementioned coordination, RCA and Dudek hold regular monthly meetings.

CONSULTANT REPORT RIVERSIDE COUNTY REGIONAL PARK AND OPEN-SPACE DISTRICT MSHCP LAND MANAGEMENT UNIT FISCAL YEAR 2023/2024 SECOND QUARTER REPORT

Report Covers Period: October 1, 2023 to December 31, 2023

General Administration

The Riverside County Regional Park and Open-Space District Western Riverside County Multiple Species Habitat Conservation Plan (MSHCP) Land Management Unit (hereinafter referred to as 'Parks' or 'District' and 'Unit,' respectively) toured the potential TNC Shumacher, TNC Samrith, and Wolfskill properties with staff of the RCA, California Department of Fish and Wildlife (CDFW), and State of California Wildlife Conservation Board (WCB). The RCA was seeking WCB funds to assist with the acquisition of the properties, and the tour highlighted their importance in contributing to the conservation goals of the MSHCP.

Staff met with the RCA and project proponents of the Perris Logistics Center on October 12 to discuss impacts to the Conatser Conservation Easement that had occurred outside predefined work areas through RCA easement associated with the construction of the center. The project proponents readily assumed responsibility for the impacts and pledged to address them alongside other planned mitigation associated with the project. The Unit then visited the site to map the impacts. The site had been monitored by the Unit with drone photos biweekly during the construction, which led to the discovery of the impacts.

The Unit met with staff of the Riverside County Transportation and Land Management Agency (TLMA) and a neighbor of the Spring Mountain Ranch Donation PA1 property to discuss ongoing issues that the neighbors had with people parking cars and doing illicit activity in front of their house at the Pigeon Pass Road dead end. The neighbor requested TLMA to install a gate further up Pigeon Pass Road. While the issues at the dead end had little to do with the adjacent RCA lands, Ranger staff increased patrols at the property to assist TLMA with increased presence at the site (see Enforcement/Patrol, San Timoteo HMU section below for more info).

The Unit had ongoing discussions with the RCA regarding the potential Burrowing Owl (*Athene cunicularia*) translocation associated with the Hub @ Ontario project. At the request of the project's proponents, the Unit created several versions of Property Analysis Records (PARs) to provide options of long-term funding to the RCA to manage the owls under different scenarios. Staff then prepared the RCA receptor site for the first stage of the translocation (see Flora/Fauna section, San Jacinto HMU section below for more details).

Multiple versions of PARs were created to outline funding options for the long-term management of the future JBJ Ranch project mitigation area.

A PAR for the oversight of the WatersEdge Mitigation Bank was created.

Staff met with the RCA to further discuss long-term funding options for the future Adobe Springs property. After the discussions, the property's PAR was updated and resubmitted to the RCA.

Natural resource specialist staff coordinated with staff of the MSHCP Biological Monitoring Program to create a digital form for which the Unit could use to submit Burrowing Owl monitoring data to the program.

Various staff members attended several professional meetings and trainings, including the California Invasive Plant Council annual symposium, Santa Ana River and Orange County Weed Management Area fall symposium, a North American Invasive Species Management Association's webinar, a CDFW Conservation Lecture Series webinar, Helena Agri-Enterprises pesticide continuing education seminar, and CDFW Cannabis Grow Indicator training.

The monthly RCA Management and Monitoring Coordination meeting, monthly MSHCP Management and Monitoring meeting, the monthly Parks Managers meeting, and the Monthly Parks Supervisor meeting were regularly attended.

During this quarter, a total of 80 hours of Work Release Program (WRP) and 11 hours of volunteer time were utilized for land management activities.

Wildfire Incidents

On October 30, the Highland Fire ignited on private proeprty in the Aguanga area. The Unit guickly reached out to the Cal Fire and Resource Advisors (READs) assigned to the fire to provide them with mapping of particularly sensitive species habitat that was in the expected path of the fire and would be adversely affected by intensive mechanical fire suppression activities. A request was given to avoid these species' habitat with bulldozers if possible while still providing public safety. Staff also immediately deployed to the area to open gates to RCA properties in the area to facilitate fire suppression crew access. As the multiday event progressed, staff attended daily briefings at the fire's Incident Command and continued to provide information concerning natural resources and access in the area. Once the conflagration began to come under control, the area was surveyed for impacts to habitat and access controls the fire's READs created. The fire ultimately burned 2,487 acres, a portion of which occurred on the RCA's Tax Sale Parcels 2016 Detail 3, Wilson Creek, United Five Star Capital (1), Won Yoo Land Exchange, and Melmoth properties. Staff remained on site to provide input on suppression repair activities and to resecure gates as fire crews pulled out of the area. Staff then began securing the properties to prevent an expected increase in unauthorized off-highway vehicle (OHV) access and temporarily closed portions of the properties to the public to allow for resources to recover from the fire. With the assistance of the Unit's volunteer, dozens of RCA "No Trespassing" signs were installed along all affected property boundaries where public access was likely, debris was used to block one potential OHV access location, and a gate was planned at another.

Staff responded to the Stanley Fire in the Wilson Creek area. Gates were opened at the nearby Cordova property and the fire was monitored. The fire was quickly contained at five acres and no RCA properties were affected.

While on patrol in the Aguanga area, ranger staff observed a plume of smoke near their location. The ranger ensured the fire had been reported to the local responding fire agency and headed to its location. Upon arriving on scene, the ranger discovered a small wildfire burning on private property with several residents working to extinguish it. The ranger assisted with extinguishing the fire and remained on scene until responding fire agencies arrived.

Patrol/Enforcement

Badlands Habitat Management Unit (HMU)

Ranger staff inspected the Wolfskill/Driscoll property after finding one of its gates cut open. They discovered a large tractor heading up a remote canyon within the property. Contact was attempted with the operator, however commands to stop the equipment went unheeded. The ranger was unable to pursue the tractor in rough terrain and unsuccessfully attempted to intercept it on the far side of the property after resecuring the gate. Rangers returned to the property and hiked in to find the tractor abandoned within the property. Staff suspected the tractor was stolen and were able to track down its owner, whom was an owner of a nearby dairy. Staff escorted the owner to the tractor and assisted them with recovering it. It was learned that a relative of the dairy owner had been arrested for stealing the tractor and other equipment from the dairy the night before. Throughout the quarter one other compromised gate and one cut fence were also located at the property and were repaired.

Patrol of the CalMat and Schmeling properties along Jackrabbit Trail occurred one to two times a week. A So Cal Gas Company gate at the Schmeling property was repeatedly targeted for access by OHV riders and was secured shut on three occasions after being found cut open. Along Jackrabbit Trail, rangers contacted one dirt bike rider, two vehicles looking to unload OHVs, and one vehicle with sleeping occupants on Jackrabbit Trail. All were notified of the road's private status and left the area. Contact was unsuccessful with one dirt bike rider on the road and four riders in the Calmat property who all fled the area upon seeing rangers. Dumping along the entire length of the road was addressed by the Unit (See Maintenance/Fencing, Badlands HMU section below for more details).

Cactus Valley HMU

Ranger staff located and repaired a cut fence along Red Mountain Road at the SSR Inv Co property.

Gavilan HMU

Early in the quarter ranger staff discovered a large homeless encampment with multiple occupants in Temescal Wash at the Circle K Donation property. Services were offered to the camp's occupants and discussion began with them to clear them from the property. After several weeks the camp was abandoned, however it was discovered that some of the occupants had moved only a short distance onto neighboring Riverside-Corona Resource Conservation District (RCRCD) land. Eventually, with assistance from RCRCD and the Sherriff's Department, the individuals left the area entirely. Staff then worked to clean up the large amount of debris left behind and posted the proeprty as no trespassing (See Maintenance/Fencing, Gavilan HMU section below for more detail).

The contiguous RCA properties in the Steele Peak area (Adams, Andrade, North Peak #1, North Peak #2, etc.) were patrolled one to three times weekly. Throughout the quarter ranger staff contacted a total of 16 OHV riders, two vehicles with occupants looking to target shoot, two separate pairs of individuals who had spent the night on the North Peak #2 property, and made two fence repairs. All individuals were notified of the rules of the conserved lands and left without incident.

At the Johnson property rangers contacted one individual with prospecting tools attempting to access one of the property's closed mines and two quail hunters. The individuals were notified that their respective activities were not allowed on the property, and they left its boundaries.

At the Toscana Donation Phase 2 property, ranger staff resecured a compromised gate and contacted an individual who had spent the night on Dawson Canyon Road at the property.

At the Roth property two short fence segments, totaling 40 feet were installed by ranger staff to block OHV trails entering the property.

Single cuts in fencing at the Olsen Canyon and Reynolds properties were located and repaired.

Single compromised gates were located and repaired at each of the Lakeside and EIP Walker Canyon properties.

Menifee HMU

Ranger staff installed a short fence segment adjacent to a neighboring private property at RHW Phase 1 property after noticing vehicle tracks emanating from it. During a separate patrol of the property, contact was made with individuals driving a tractor and vehicle through the property. They claimed they were enroute to recover a stuck vehicle on adjacent BLM property. A BLM ranger was notified of the activity.

A 15-foot section of cut fence at the Nelson property was located and repaired.

Single cuts in fencing at the Evandel-Wilson and Nelson properties were located and repaired.

River HMU

The Emerald Meadows property's gate was resecured by ranger staff after being found off its hinges.

Sage HMU

The Unit reached out to a Sheriff's Department investigator who contacted the RCA with reports of a trespassing cannabis grow that they had raided at the Gabrych property. It was learned from the investigator that grow had taken place inside the RCA property near its southwest corner, and that the growers had been accessing the property from a private property to the west. A greenhouse had been erected on the RCA property which contained 1,128 cannabis plants. Two arrests were made during the raid and the plants were seized. The investigator recommended against trying to access the grow site, citing safety concerns. At the end of the quarter the Unit was trying to work with the investigator to obtain a deputy escort so that the Unit could remove the greenhouse.

As suppression activities were subsiding during the Highland Fire, the Unit was notified of a vehicle driving through RCA property in the area that had been captured on a neighbor's motion activated camera. Rangers investigated the incursion and surmised that an individual in a truck had entered the United Five Star property through a gate left open due to the fire. The vehicle then traveled north utilizing abandoned roads and cut their way through two fences to ultimately exit the Odegaard property to the north. The occupants were not in any danger from the fire and crushed a considerable amount of vegetation during their foray. The cut fences were repaired, and the open gate was secured shut shortly after.

Ranger staff repaired the same cut fence twice and contacted two dirt bike riders at the RH Acquisition property.

Rangers inspected the Geller property to ensure that a shipping container that had been placed within its boundaries had been removed by the private property owner responsible for it. The shipping container had been moved back to the private property.

The Winchester 700 Reed Valley property was patrolled after a neighbor reported that she suspected poaching was occurring on the it. No signs of the illicit activity could be found. Ample "No Hunting" signage was placed at the property, and it will be monitored for the activity in the future.

A ten-foot fence extension was installed at the Weigel property to block an OHV fence go-around.

San Jacinto HMU

The EMWD SJ River Conservation Easement and EMWD owned/RCA managed properties of the San Jacinto River in Hemet were patrolled approximately weekly. One new homeless encampment was located and cleared at the properties and staff cleaned up roughly one truck load of refuse left behind. Contact was made with one dirt bike rider attempting to access the properties and was unsuccessful with another rider who fled when they saw a ranger.

At the Ida Lane property, ranger staff discovered that a neighbor had been accessing the property with a vehicle. One fence was extended and a short fence segment was installed to block the unauthorized access.

Rangers located and repaired a 20-foot fence break along State Route 74 at the RCTC McAlister Donation property.

San Timoteo HMU

The Unit prepared for and implemented an unauthorized mountain bike trail closure at the Kehl Canyon area for RCA properties (Kramer/4 K's LLC, Lin, M Family Estates, etc.) in Calimesa. At the location, numerous new trails were discovered that had been recently created. Over the course of two days, staff drove and hiked the properties to block the recently created trails. In total, staff placed 13 signs and six fence segments (totaling approximately 650 feet) to close 4.36 miles of illegally created trails. A total of 36 sandbags and a large wooden bridge and jump feature were also dismantled from the trails and removed during the closure effort. About 7.62 miles of pre-existing trails remained open at the property after the closures. The properties were also patrolled early in the morning of the deer season opener and several hunters were turned away from accessing RCA properties in the area. One fence repair was also made at the Kramer property.

The Oak Valley Partners property was patrolled several times a month and continued to see an onslaught by unauthorized activity facilitated by an unsecured construction site to the north. Throughout the quarter, rangers contacted many individuals on or approaching the property from neighboring private property posted as no trespassing. These contacts included five groups of hunters, 18 OHV riders, the occupants of three vehicles, one private property owner trying to gain access to their land-locked parcel, and four vehicles looking to unload para-motors. All individuals were notified of the rules of the conserved lands and/or that they were trespassing on private property and left without incident. Contact was also attempted with 12 OHV riders who fled at the site of rangers. A cut gate at the property was secured shut on two occasions. Finally, late in the

quarter, ranger staff discovered a flipped truck adjacent to railroad tracts just off property. The vehicle was called into the Sherriff's Department and came back as stolen. A ranger remained on scene for the recovery of the vehicle which was made through the RCA property owing to no other feasible access. It was learned that the vehicle had been struck by a train the night prior but was unable to be located by law enforcement at the time.

In response to increased attention at the Spring Mountain Ranch Donation PA1 property, rangers visited the site one to two times a week. Throughout the quarter, ranger staff repositioned a bollard that had been hit by a car back into place, cleaned up three garbage bags worth of trash, and pushed out three vehicles at the Pigeon Pass Road dead end.

Maintenance/ Fencing

Badlands HMU

With the help of WRP workers, staff picked up one dump truck load of refuse that was illegally dumped along Jackrabbit Trail at the CalMat property. The refuse was taken to a landfill.

Cactus Valley HMU

At the Goodhart property, efforts were made to limit the chances of the property's access road from washing out after experiencing storm damage. The bridge structure on the road accessing the property's office and residence had been crested twice in previous months by post-fire storm runoff and the water had begun to eat away soil on either side of the bridge. Staff and WRP workers filled and placed over 175 sandbags at the bridge in an effort to keep runoff from cresting it again. A small drainage ditch was also excavated adjacent to the wash to redirect water flowing down the road back into the wash. Staff also worked to remove hazardous oak tree limbs overhanging the road.

Gavilan HMU

Large crews of staff spent two partial days hauling homeless encampment trash out of Temescal Wash at the Circle K Donation property. 1.6 tons of refuse were removed from the site and disposed of at a landfill.

Menifee HMU

Following the completion of the structure demolition at the Chappell property, RCA "No Trespassing" signage was replaced with regular RCA "Boundary" signs.

Staff harvested a trailer load of old horse corral fencing from the Anheuser Busch property to be repurposed as gates at other RCA properties.

San Jacinto HMU

Utilizing an electric sprayer, staff painted over graffiti which covered most of an 1,800-foot-long cinderblock wall bordering the KHOV Donation property.

Staff cleaned up eight large garbage bags worth of refuse from an abandoned homeless encampment at the EMWD-owned/RCA-managed property in the San Jacinto River Wash.

Staff picked up 50 illegally dumped tires from the Sey Property.

Sage HMU

The Unit was notified by Riverside County Environmental Health that an estimated 55 gallons of used motor oil had spilled from a dumped container in a Wilson Valley Road pullout at the Jalem property. In fear that the oil would spread with impending rains, staff deployed to the site and covered the roughly 600 square-foot spill with plastic sheeting. The Unit contracted a hazmat cleanup company for remediation of the spill, which necessitated 9,000 pounds of contaminated soil to be removed from the site.

Staff extended a metal post and cable OHV barricade along the eastern boundary of the Wilson Creek property to block a four-wheel OHV fence go-around. An additional 280 feet of cable fencing was installed along the boundary.

Santa Ana Mountains HMU

Staff picked up two truckloads of stripped vehicle debris from the Hermann property.

Weed Abatement

Roadside string trimmer weed abatement was completed by maintenance staff at the Burek, Toscana Marketplace, and Spring Mountain Ranch Donation PA1 properties.

Structure protection tractor mowing and string trimmer weed abatement was completed by maintenance staff at the Washington St Conservation Easement.

Second round structure string trimmer weed abatement was completed by maintenance staff at the Richmond American property.

Second round structure protection tractor mowing and string trimmer weed abatement was completed by maintenance staff at the Winchester Road property.

Staff limbed-up ladder fuels in trees and trimmed trees away from Dawson Canyon Road at the Burek and Dawson Creek properties. About 0.26 tons of trimmed tree waste was removed from the site.

Habitat/Species Management

Cactus Valley HMU

Prior to the first winter rain, natural resource specialist staff broadcasted 15 pounds of purchased Dot-Seed Plantain (*Plantago erecta*) seeds and a similar amount of collected native shrub seeds at the post-fire Quino Checkerspot Butterfly (*Euphydryas editha quino*) restoration polygons at the Bautista Canyon property.

Menifee HMU

Staff completed tri-annual Burrowing Owl artificial burrow checks at the El Sol Vineyard Hill Donation (El Sol) and McElhinney-Stimmel properties. Although several of the artificial burrows at the El Sol

property were partially or fully blocked by soil, the presence of eight individual owls were confirmed across the site. In contrast, no signs of Burrowing Owls were observed at the McElhinney-Stimmel property.

A quarterly check of the Clinton Keith Road wildlife fencing and the fence's one-way wildlife doors was completed. Existing issues of erosion around the fence and gaps underneath it persisted but did not appear worse than in previous checks.

River HMU

Two visits were spent clearing late season non-native weeds and seedling native shrubs from the Delhi Sands Flower-Loving Fly (*Rhaphiomidas terminatus abdominalis*) restoration polygon at the Teledyne property. The property's photo monitoring stations were also visited.

Sage HMU

The Cordova Phase 2 property's Stephens' Kangaroo Rat (*Dipodomys stephensi*) habitat was tractor mowed by maintenance staff.

Santa Ana Mountains HMU

Staff inspected restoration work being completed by the Project Applicant at the future Renaissance Ranch property. The site looked great with ample native plant species and very little non-native vegetation.

San Jacinto HMU

With the anticipated translocation of Burrowing Owls from the Hub @ Ontario project site, staff prepared the RCA Nuevo Donation property to receive them. Early in the quarter, the northern approximately 50 acres of the property was tractor mowed by staff. Later in the quarter large crews of staff deployed to the site and under the direction of project biologists working on the translocation, installed 12 new artificial burrows in the northeast quadrant of the property. One Juvenile Burrowing Owl was placed in an enclosure over one of the new artificial burrows at the time and its care was handled by the project biologists. Following the release of the juvenile bird from the enclosure, natural resource specialist staff conducted tri-annual checks of the existing artificial burrows at the property and conducted maintenance on them. Soil was vacuumed out of 12 of the existing artificial burrows at the site and four wild Burrowing Owls were observed at the property.

Utilizing knowledge gained from an in-house multiple-year non-native grass and invasive Stinknet (*Oncosiphon pilulifer*) herbicide control experiment at Kaelin #2 property, staff expanded the best preforming treatment to a larger area at the same property. Staff tractor mowed four acres of the Kaelin #2 property, and one acre of the mowed area was treated with specialized herbicides to treat the targeted invasive weeds.

Staff completed the annual inspection of the Riverpark Mitigation Bank Conservation Easements Phase 1 and 2 properties. It was apparent that the bank's sponsor (Ecosystem Investment Partners) had completed much work to treat the habitat, removed trash, and secured the site. However, three breaks to the site's fencing and a missing gate were located and reported to the bank sponsor.

Acquisitions

Initial Site Inspections:

The following properties were inspected by natural resource specialist staff prior to acquisition. All covered species were reported to the MSHCP Biological Monitoring Program. All outstanding issues were mapped and submitted to the RCA's acquisition team so that any issues could be addressed during the acquisition process, if appropriate. A detailed summary and photos of the properties were also submitted to the acquisition team.

Dilworth - Nestled in the southwestern corner of the City of Hemet, the 63.53-acre property consisted of flat alkali playa habitat that had been recently disked. As such, the property was mostly devoid of vegetation. Two cement structures and a manhole were observed on the property and appeared to be associated with a water line or sewage system that bisected it. In addition, several piles of wood planks and fencing debris were located on the property, as was an area with refuse that appeared to be a long-abandoned homeless encampment.

KB Homes Donation - The property was reinspected by staff to identify locations that necessitated monuments to be installed. While at the property, scattered litter and dumping piles were discovered.

Kiley Donation - Staff revisited the property to confirm that its monuments had been successfully installed. Large monument poles had been placed in all requested locations; however, trash was still present in some areas. Staff scheduled a follow-up inspection at the property with the site superintendent responsible for the associated development and a crew tasked with the clean-up of the property promptly removed the remaining debris.

Phyllis LLC (Back Basin) - Located next to the southeastern shore of Lake Elsinore, the 21.34-acre parcel supported a predominately Tamarisk scrub habitat sprinkled with low densities of native riparian habitat. One corner of the property also contained a small ornamental Eucalyptus woodland and Riversidean sage scrub habitat. Several trash items and miscellaneous debris were observed within the property, and it was noted that the southwestern portion of the property encompassed a section of the Lake Elsinore levee. MSHCP covered species observed at the property over the course of the inspection included Smooth Tarplant (*Centromadia pungens ssp. laevis*), Northern Harrier (*Circus hudsonius*), and Coyote (*Canis latrans*).

SSR 39 - Tucked between Juniper Springs and the Lakeview Mountains, the 39.18-acre parcel contains undulating disturbed Riversidean sage scrub covered hills with rocky outcrops. Although Coastal California Gnatcatcher (*Polioptila californica californica*), Southern California Rufus-Crowned Sparrow (*Aimophila ruficeps canescens*), and Turkey Vulture (*Cathartes aura*) were observed utilizing the property, the site showed signs of continuous, heavy off-road vehicle use and extensive illegal dumping.

Toscana Marketplace - Staff returned to the property to confirm that all requested monuments had been installed and that trash issues had been resolved. Both tasks had been completed satisfactorily.

Toscana Donation Phase 5 - The 87.15-acre property abutting the Terramor housing community consists of steep hills dominated by coastal sage scrub habitat intermixed with small patches of chaparral habitat. Two encroachments into the property from neighboring private properties were located. A fenced area with two water tanks and a well were identified within the western boundary

of the property and a manufactured slope with v-ditches was located along the southeastern boundary of the property. A pile of dumped refuse was also found on a dirt road bisecting the property. Several MSHCP covered species were observed at the property, which included Coulter's Matilija Poppy (*Romneya coulteri*), Coastal California Gnatcatcher, and Coastal Western Whiptail (*Cnemidophorus tigris multiscutatus*).

BACKGROUND INFORMATION:

The Public Affairs staff continues to make strides in educating the public on RCA and the MSHCP's efforts to enhance habitat conservation in Western Riverside County. Utilizing digital communication platforms to increase public awareness of the RCA and its progress, staff highlight the numerous contributions to conservation, habitat protection, community, and infrastructure development made possible by the MSHCP. This report provides insight into engagement from audiences reached, interactions with content, and serves as a guide for future outreach activities.

This report is a compilation of analytical data pulled from the fourth quarter of 2023 via metrics that illustrate overall public sentiment, social media engagement and reach, *The Vista* e-newsletter subscription interest, and website analytics.

The data is summarized below and in the attached one-page dashboard graphic.

Social Media

Social media followers slightly increased across all social platforms - Facebook, Instagram, and X (formerly known as Twitter) during the fourth quarter. Reach and engagement levels were mixed.

- Overall Social Media Sentiment: Public sentiment was positive throughout the fourth quarter of 2023. Posts that highlighted a USFWS grant received by RCA, planning a visit to RCA lands, and featuring habitat linkages under the MSHCP performed very well – producing some of the highest sentiment levels for the quarter.
- Facebook: By the end of this quarter, the Facebook page had accumulated 2,155 followers a 0.2% increase compared to the third quarter. Engagement, such as likes, shares, and comments, increased by 82%. Users reached increased by 194% from the previous quarter, due in part to well-received posts about the USFWS grant and MSHCP protected lands.
- 3. **Instagram**: Followers grew 3% during the fourth quarter. Engagement decreased 4.1% and reach decreased by 63.2%.

4. **X (formerly known as Twitter)**: The X page experienced a 5% gain in followers - moving up the total to 146. Engagement decreased by 40%, but reach experienced an increase of 70%.

The Vista E-Newsletter

The Public Affairs staff continues to publish engaging and educational stories for the RCA's newsletter, *The Vista*, using the platform to illustrate the benefits of RCA's MSHCP. At the end of the fourth quarter, the newsletter had 1,939 subscribers - a 0.9% decrease. On average, 33% of subscribes opened *The Vista* and 3% clicked on links.

Website

Overall website sessions experienced an increase during the fourth quarter.

- 1. From October to December, 11,048 website sessions took place, an 11% increase from the previous quarter. Of these sessions, 7,273 were unique users.
- 2. Most website visitors (57%) accessed the website organically through a search engine. Direct website visits (typing in the URL) made up 23% of all sessions. Other website sessions originated from email newsletter links or referrals (6%) or through social media channels (14%).
- 3. 64% of website sessions took place on desktop computer with the remaining 36% of users accessing the website via mobile device such as a smartphone or tablet.
- 4. The homepage continues to be the most frequently visited webpage, followed by the RCA Maps, The Downy Woodpecker Species Spotlight, and Bald Eagle Species Spotlight.

WESTERN RI	VERSIDE COUNTY REGIONAL CONSERVATION AUTHORITY
DATE:	March 4, 2024
то:	Western Riverside County Regional Conservation Authority
FROM:	Jennifer Fuller, Financial Administration Manager
THROUGH:	Anne Mayer, Executive Director
SUBJECT:	Quarterly Financial Statements

This item is for the Board of Directors to:

- 1) Receive and file the Quarterly Financial Statements for the six months ended December 31, 2023, and
- 2) Approve the Fiscal Year 2023/24 budget adjustment in Attachment 2.

BACKGROUND INFORMATION:

Staff has monitored the revenues and expenditures for RCA for the period ended December 31, 2023, and the attached financial statements which present the revenues and expenditures through mid-year for Fiscal Year 2023/24. As a result of the analysis, staff is recommending a budget adjustment to increase appropriations for contracts.

The operating statement shows the Local Development Mitigation Fee (LDMF) revenues for the second quarter at 63 percent of the budget. LDMF revenues are collected by member agencies then remitted to the RCA. Payments to the RCA shall be made no later than 90 days after the LDMFs were collected. This creates a lag in the receipt of revenues by RCA.

Federal and state revenues are only recognized when a grant property is purchased or for the Local Assistance Grant (LAG Grant) and Jurupa Mountain Grant (JM Grant) when costs are reimbursed. Through the second quarter, RCA had purchased and been reimbursed for two properties using the JM Grant and purchased one property using Section 6 grant funds. No costs were reimbursed for the LAG Grant. Staff expects that the more grant funded properties will be purchased and spending and reimbursement on the LAG Grant will occur before year-end.

Tipping fees are remitted to the RCA by the County of Riverside (County). RCA received tipping fees related to first quarter tonnage in the second quarter. Amounts are similar to collections in the prior year.

During the FY 2023/24 budget process, RCA conservatively estimated Transportation Uniform Mitigation Fee (TUMF) revenues of \$750,000 passed through from the Western Riverside Council

of Governments (WRCOG). RCA received first quarter TUMF fees during the second quarter. The amount collected is similar to the amount collected in the prior year.

Other fee revenue consists of infrastructure, civic, and flood contributions from Member Agencies and the Riverside County Flood Control and Water Conservation District (District). A small amount of other fee revenue was collected in the second quarter related to prior year projects.

Revenue is recognized on donated properties at the time of donation and at appraised value. Staff is working diligently on many land donations. Three land donations closed during the first half of the year which will be recognized once appraisals are completed. RCA funded the purchase of one property using settlement funds and received two endowment donations during the second quarter.

During the FY 2023/24 budget process, the RCA estimated interest income at \$1,156,100. RCA received the first quarter's earned interest income from the Riverside County Treasurer's Pool Investment Fund in the second quarter. Interest earnings at year-end will exceed the budget estimates.

The expenditures/expenses and other financing sources/uses categories are in line overall with the expectations of the budget with the following exceptions:

- Insurance costs were lower than the estimate used for budgeting purposes.
- Contract costs are under budget due to unused budget authority for all contracts as the amounts only relate to up to five months of charges;
- Legal costs are under budget due to unused budget authority as the amounts only relate to five months of charges;
- The County Facilities Management Department collects two months of rent in the first month of each fiscal year and does not collect rent in June. Therefore, seven months of rent were collected through mid-year resulting in 58 percent of the budget being utilized;
- Most of the assessments and HOA fees are paid on an annual basis and are not due until later quarters;
- Capital outlay expenditures is at 60% of budget relating to six properties which closed through mid-year resulting in nearly 900 acres of ARL.

FISCAL IMPACT:

The Santa Ana Watershed Association (SAWA) operating budget for FY 2023/24 did not include costs for additional work to be reimbursed by a developer under a separate agreement. As such additional appropriation is needed to cover those costs. Most of the costs will be covered by the reimbursement. Other miscellaneous revenue will be used to cover the remainder.

AGENDA ITEM 7

WESTERN RIVERSIDE COUNTY REGIONAL CONSERVATION AUTHORITY				
DATE:	March 4, 2024			
то:	Western Riverside County Regional Conservation Authority			
FROM:	Tyler Madary, Legislative Affairs Manager			
THROUGH:	Anne Mayer, Executive Director			
SUBJECT:	State and Federal Legislative Update			

This item is for the Board of Directors to receive and file an update on state and federal legislative affairs.

State Update

The California Legislature continues its busy spring season following the February 16th deadline to introduce new legislation. The Legislature will now turn its focus to holding committee hearings on legislation and the Governor's Budget proposal for Fiscal Year 2024-25. As previously reported, the Governor's Budget proposal largely leaves intact funding related to conservation and nature-based solutions, however there is a potential \$15.7 million cut to a Wildlife Conservation Board (WCB) program that funds land acquisition in support of habitat conservation. While these funds were allocated in the FY 2023-24 Budget, the Governor has proposed a reversion of those funds. RCA staff, together with the California Habitat Conservation Planning Coalition (CHCPC), will travel to Sacramento on March 11th to meet with members of the Legislature and Governor's Administration to advocate against cuts to the WCB funding program that RCA competes for. Additionally, RCA and the CHCPC will advocate for maximized funding to WCB in the proposed climate and natural resources bond, as well as for a carveout for land acquisition in support of habitat conservation within the potential bond.

On February 8th, newly elected Senate Speaker Pro Tempore Mike McGuire (Healdsburg) announced new Senate leadership and committee assignments. Senate Dave Min (Irvine) remains as chair of the Senate Natural Resources and Water Committee, while Senator Ben Allen (El Segundo) continues his chairmanship of the Senate Environmental Quality Committee.

Regional Advocacy Meetings

Over recent weeks and months RCA staff have conducted several meetings with district office staff from Riverside County's state legislative delegation to discuss legislative priorities for the RCA and the Riverside County Transportation Commission (RCTC). In addition to meeting with Senator Kelly Seyarto (Murrieta), meetings were held with staff from the offices of Assemblymembers Bill Essayli (Corona), Eduardo Garcia (Coachella), Corey Jackson

(Moreno Valley), Kate Sanchez (Rancho Santa Margarita), and Greg Wallis (Bermuda Dunes), as well as Senator Steve Padilla (Chula Vista). These meetings offer the opportunity to remind elected officials of the MSHCP's value for Western Riverside County – balancing growth with protecting the region's natural habitat.

Federal Update

Fiscal Year 2024 Appropriations discussions continue between the House and Senate. Congress approved an additional Continuing Resolution (CR) to keep the government open at existing funding levels on January 18th. Congress has a new deadline of March 1st to pass budget legislation related to Agriculture, Energy-Water, Military Construction-Veterans Affairs, and Transportation-Housing and Urban Development, and must pass all other appropriations legislation by March 8th, or pass another CR to keep the government open. As of the publish date for this report, appropriations legislation has not been approved.

As noted above, staff have been conducting meetings with district office staff with elected officials, which includes Riverside County's federal elected representatives. Meetings were held with staff from the Offices of Senator Alex Padilla and Laphonza Butler, as well as the Office of Representative Raul Ruiz to discuss legislative priorities for RCA and RCTC. RCA and its advocates in Washington, D.C., are also engaging members of Congress and the President's Administration to advocate for the inclusion of \$100 million in Fiscal Year 2025 Appropriations funding for the Habitat Conservation Plan (HCP) Land Acquisition Grant program within the Cooperative Endangered Species Conservation Fund, also known as "Section 6".
